Configuration overview

Process: molded / pressed panel design.
Material options: Green Crystal board (manufacturer designation) or multilayer plywood.
Panel specifications: Green Crystal board: 2150 × 920 × 4 mm; multilayer plywood: 2440 × 1220 × 4 mm.

The source lists 2160 × 920 × 4 mm for XT-098 in Woodgrain No. 3. This variant is shown with that value; confirm it before ordering.

Dimensions & order confirmation

These are **panel sheet dimensions (length × width × thickness)**, not finished door leaf, frame or opening dimensions. Finished door sizes, core construction, hardware, frame details and opening direction are not specified in the source and should be confirmed for each order.
